

**Do not cut any other wires besides:**

Red | Black | Green | White

Keep all other colors connected between the reader and the panel: They are important and are not used by Zerv.

**Use appropriately sized wire nuts on all wire splice connections.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
